

## About the Organization

### Lancaster Mennonite School - New Danville Campus

LM New Danville Campus provides an academically excellent Anabaptist education for Pre-K through 5th grade students. New Danville is a linguistically and culturally diverse school that empowers students to change their world through Christ-like love, peacemaking and service. New Danville serves students through creative practices such as Makerspace, gardening, music, and restorative justice education.

## Internship Details

Internship options would be flexible depending on the individual, but the intern would ideally have experience, training, or interest in education, social work, counseling, or Spanish.

Several part-time responsibilities that could be put together to form the full-time internship include:

### *Spanish Instructor*

- Help develop a Spanish Experience program introducing elementary students to conversational Spanish, assist in choosing a basic curriculum if necessary
- Plan two 20-minute lessons per week. Lessons will be focused on introductory Spanish conversation skills, and can include games, crafts, and other activities. A total of 7-8 sessions will be taught per week, as the same two lessons planned can be retaught to all grade levels, many of whom are being introduced to Spanish for the first time.

### *Teacher's Aide*

- Assist Pre-K-5th grade classroom teachers and Music/Art/MakerSpace/PE teachers in creating a safe and nurturing classroom environment through supervising students in the classroom and at Music/Art/MakerSpace/PE class, coordinating activities under the teacher's direction, working with small groups of students, and interacting with students during free play time.

### *After School Care Supervisor*

- Plan after-school care activities for multi-age students and supervise After School Care. This would include opportunities such as leading devotions and peacebuilding/conflict resolution activities (curriculum provided if needed), helping students care for the school garden and harvest produce, leading simple Spanish language activities and games, using our MakerSpace design lab to work with students on simple design and engineering challenges, assisting older students with homework, and building relationships with the students' parents.

### *PreK-3 Teacher*

- Help develop a full-day program for up to ten 3- and 4-year-olds that includes managing a safe and peaceable classroom environment
- Plan and facilitate (or assist teacher) early literacy activities, peacebuilding and conflict resolution activities, games, songs, outdoor play, gross motor activities, fine motor activities, free choice stations, and an introduction to school expectations such as taking turns, sharing, walking in a line, raising hands, cleaning up independently, etc.
- Collaborate with the Pre-K Teacher about lesson planning, parent communication, and student behavior plans
- Build relationships with students' parents through regular communication about learning, including parent conferences and emails
