About the Organization

As a fair trade pioneer, we believe market-based solutions can end the cycle of poverty.

We are not your typical business. We are a non-profit social enterprise that partners with independent small-scale artisan groups, co-ops and workshops to bring their wares to our markets.

Mission: We create opportunities for artisans in developing countries to earn income by bringing their products and stories to our markets through long-term, fair trading relationships.

Ethical at Every Step: A maker-centered business model

- We pay a fair price to all our artisans for their work
- We create long-term partnerships with artisans to provide consistency and stability
- We ensure good working conditions
- We collaborate with makers to preserve traditional skills of craftsmanship while creating items with modern designs
- We emphasize the use of recycled and renewable materials and use sustainable environmental practices
- We partner with women and people who are often overlooked, to help them thrive and create change in their families and communities

Internship Details

Job responsibilities include product design, purchasing/marketing, retail and facilities management. More details can be provided if you are interested in this position.
